DRAMA STUDIO,

SOUTH MOLTON COMMUNITY COLLEGE,

The medal test weekend has had to be split due to many students missing vital classes due to the inclement weather that nobody could do anything about! If this works better for people, and reduces the stress, especially for those brave souls who study many different forms of dance and performance, then the format of splitting the days may well continue. Let us know what you think.

We would thank Laurence Randall for his support in the IT side of medal tests unreservedly!
